SECOND EDITION

Risk Assessment for Environmental Health

Mark G. Robson
William A. Toscano
Qingyu Meng
Debra A. Kaden

362.1

R5761 RI,2

265863

Contents

List of Boxes	ix
Foreword	xi
Preface	xiii
Editors	xv
Contributors	xvii
1. Introduction to Risk Assessment	1
<i>Mark G. Robson, William A. Toscano, Qingyu Meng, and Debra A. Kaden</i>	
2. The Risk Assessment–Risk Management Paradigm	15
<i>Gilbert S. Omenn and David L. Eaton</i>	
3. Risk Assessment and Regulatory Decision-Making in Environmental Health	39
<i>Felicia Wu and Joseph V. Rodricks</i>	
4. Exposure Assessment: The Ways We Measure Exposure and Its Application to Risk Assessment	57
<i>Donghai Liang</i>	
5. Biological Monitoring of Exposure to Environmental Chemicals throughout the Life Stages: Requirements and Issues to Consider for Birth Cohort Studies	73
<i>Parinya Panuwet, P. Barry Ryan, Dana Boyd Barr, and Warangkana Naksen</i>	
6. Role of Epidemiology in Environmental Health Research	99
<i>Wil Lieberman-Cribbin and Emanuela Taioli</i>	
7. Toxicological Basis for Risk Assessment	111
<i>Mark G. Robson and William A. Toscano</i>	
8. The Application of Physiologically Based Pharmacokinetic (PBPK) Modeling to Risk Assessment	153
<i>Raymond S. H. Yang, Yasong Lu, and Zhoumeng Lin</i>	
9. Adverse Outcomes Pathways (AOPs)	179
<i>Elizabeth V. Wattenberg</i>	
10. Epigenetics in Risk Assessment	187
<i>Carmen Marsit and Jinze Li</i>	
11. Probabilistic Models for Characterizing Aggregate and Cumulative Risk	199
<i>Qingyu Meng</i>	
12. Occupational Risk Assessment	225
<i>Adam M. Finkel, Douglas O. Johns, and Christine Whittaker</i>	
13. Children’s Environmental Health Risk Assessment	267
<i>Rebecca C. Dzubow and Ruth A. Etzel</i>	

14. Addressing the Limits of Risk Assessment by Focusing on Safer Alternatives
 Risk Assessment for Environmental Health 279
Joel Tickner, Molly Jacobs, and Margaret H. Whittaker

15. How European Countries Approach Regulatory Risk Assessment 317
Helmut Greim

16. Envirome Disorganization and Ecological Risksapes: The Algal Bloom Epitome 327
Matteo Convertino and Haojiong Wang

17. Risk Communication 347
Elaine M. Faustman, Jill C. Falman, and Susan L. Santos

Index 367
