| | |
|-------------------------------------|-------|
| Preface | xvii |
| Foreword by Professor Guus Berkhout | xxi |
| Acknowledgements | xxiii |
| Plan of the book | xxvii |

Part One Innovation management 1

| | |
|--------------------------------------------------------------------------------------------|----|
| 1 Innovation management: an introduction | 2 |
| The importance of innovation | 4 |
| The study of innovation | 6 |
| Recent and contemporary studies | 9 |
| The need to view innovation in an organisational context | 10 |
| Individuals in the innovation process | 11 |
| Problems of definition and vocabulary | 11 |
| Entrepreneurship | 12 |
| Design | 12 |
| Innovation and invention | 14 |
| Successful and unsuccessful innovations | 15 |
| Different types of innovation | 16 |
| Technology and science | 17 |
| Popular views of innovation | 19 |
| Models of innovation | 20 |
| Serendipity | 21 |
| Linear models | 21 |
| Simultaneous coupling model | 23 |
| Interactive model | 23 |
| Innovation as a management process | 24 |
| A framework for the management of innovation | 25 |
| Open innovation and the need to share and exchange knowledge (network models) | 27 |
| Innovation and new product development | 29 |
| Case study: The success of the iPod raises the licensing question for Apple . . . again | 29 |
| Chapter summary | 36 |
| Discussion questions | 37 |
| Key words and phrases | 37 |
| Websites worth visiting | 37 |
| References | 38 |
| Further reading | 41 |

2 Economics and market adoption

Co-written with Uluk M. Çakmakç, Department of Business, Istanbul Bilgi University, Turkey

Innovation in its wider context

The role of the state and national 'systems' of innovation

How national states can facilitate innovation

Fostering innovation in the United States and Japan

The right business environment is key to innovation

Waves of innovation and growth in capitalism: historical overview

Fostering innovation in 'late-industrialising' countries

Innovation and the market

Innovation and market vision

Innovative new products and consumption patterns

Marketing insights to facilitate innovation

Lead users

Innovation diffusion theories

Adopting new products and embracing change

Market adoption theories

Case study: The European Innovation Scoreboard

Chapter summary

Discussion questions

Key words and phrases

Websites worth visiting

3 Managing innovation within firms

Organisations and innovation

The dilemma of innovation management

Managing uncertainty

Pearson's uncertainty map

Applying the uncertainty map to avoid promising success and delivering failure

Organisational characteristics that facilitate the innovation process

Growth orientation

Organisational heritage and innovation experience

Vigilance and external links

Commitment to technology and R&D intensity

Acceptance of risks

Cross-functional cooperation and coordination within organisational structure

Receptivity

Space for creativity

Strategy towards innovation

Diverse range of skills

Industrial firms are different: a classification

Organisational structures and innovation

Formalisation

Complexity

| | |
|----------------------------------------------------------------------------------------------------|------------|
| Centralisation | 92 |
| Organisational size | 92 |
| The role of the individual in the innovation process | 93 |
| IT systems and their impact on innovation | 94 |
| Establishing an innovative environment and propagating this virtuous circle | 96 |
| Reputation of the organisation | 97 |
| Case study: Gore-Tex® and W.L. Gore & Associates: An innovative company and a contemporary culture | 99 |
| Chapter summary | 103 |
| Discussion questions | 103 |
| Key words and phrases | 103 |
| Websites worth visiting | 103 |
| References | 104 |
| Further reading | 106 |
| 4 Innovation and operations management | 108 |
| <i>Richard Noble, University of Portsmouth</i> | |
| Operations management | 110 |
| The nature of design and innovation in the context of operations | 111 |
| Design requirements | 112 |
| Design and volumes | 114 |
| Craft-based products | 117 |
| Design simplification | 117 |
| Process design and innovation | 118 |
| Innovation in the management of the operations process | 119 |
| Triggers for innovation | 119 |
| Gap analysis | 119 |
| Quality circles and process improvement teams | 120 |
| Total quality management (TQM) | 121 |
| Quality function deployment (QFD) | 123 |
| The ISO 9000 approach | 123 |
| The EFQM excellence model | 123 |
| Design of the organisation and its suppliers – supply chain management | 124 |
| Business process re-engineering (BPR) | 128 |
| Operations and technology | 129 |
| Innovation as an operations process itself | 134 |
| Case study: Novels, new products and Harry Potter | 135 |
| Chapter summary | 141 |
| Discussion questions | 141 |
| Key words and phrases | 141 |
| Websites worth visiting | 142 |
| References | 142 |
| Further reading | 143 |
| 5 Managing intellectual property | 144 |
| Intellectual property | 146 |
| Trade secrets | 148 |

- An introduction to patents
 - Novelty
 - Inventive step
 - Industrial applications
- Exclusions from patents
- The patenting of life
- Human genetic patenting
- The configuration of a patent
- Patent harmonisation: first to file and first to invent
- Some famous patent cases
- Patents in practice
- Expiry of a patent and patent extensions
 - Patent extensions
- The use of patents in innovation management
- Do patents hinder or encourage innovation?
- Trademarks
 - Should satisfy the requirements of section 1(1)
 - Distinctive
 - Non-deceptive
 - Not confusing
- Brand names
- Using brands to protect intellectual property
 - Exploiting new opportunities
 - Brands, trademarks and the Internet
- Duration of registration, infringement and passing off
- Registered designs
- Copyright
- Remedy against infringement
 - Damages
 - Injunction
 - Accounts
- Counterfeit goods and IP
- Case study: Pricing, patents and profits in the pharmaceutical industry
- Chapter summary*
- Discussion questions*
- Key words and phrases*
- Websites worth visiting*
- References*
- Further reading*

Part Two Managing technology and knowledge

6 Managing organisational knowledge

- The battle of Trafalgar
- Technology trajectories
 - The acquisition of firm-specific knowledge
 - The resource-based perspective
 - Dynamic competence-based theory of the firm

| | |
|----------------------------------------------------------------------------------------------------------------------------|------------|
| Developing firm-specific competencies | 186 |
| Competencies and profits | 187 |
| Technology development and effort required | 188 |
| The knowledge base of an organisation | 189 |
| The whole can be more than the sum of the parts | 190 |
| Organisational heritage | 191 |
| When the performance of the organisation is greater than the abilities of individuals | 191 |
| Japanese organisations and the role of organisational knowledge | 192 |
| Characterising the knowledge base of the organisation | 193 |
| The learning organisation | 194 |
| A process of knowledge accumulation and application in innovative firms | 195 |
| Combining commercial and technological strengths: a conceptual approach to the generation of new business opportunities | 198 |
| The degree of innovativeness | 200 |
| Leader/offensive | 201 |
| Fast follower/defensive | 201 |
| Cost minimisation/imitative | 202 |
| Market segmentation specialist/traditional | 202 |
| A technology strategy provides a link between innovation strategy and business strategy | 202 |
| Case study: The cork industry, the wine industry and the need for closure | 203 |
| <i>Chapter summary</i> | 212 |
| <i>Discussion questions</i> | 212 |
| <i>Key words and phrases</i> | 212 |
| <i>Websites worth visiting</i> | 212 |
| <i>References</i> | 213 |
| <i>Further reading</i> | 215 |
| 7 Strategic alliances and networks | 216 |
| Defining strategic alliances | 218 |
| The fall of the go-it-alone strategy and the rise of the octopus strategy | 219 |
| Complementary capabilities and embedded technologies | 220 |
| Interfirm knowledge-sharing routines | 221 |
| Forms of strategic alliance | 221 |
| Licensing | 222 |
| Supplier relations | 222 |
| Outsourcing | 223 |
| Joint venture | 223 |
| Collaboration (non-joint ventures) | 223 |
| R&D consortia | 225 |
| Industry clusters | 225 |
| Innovation networks | 225 |
| The 'virtual company' | 228 |
| Motives for establishing an alliance | 229 |
| The process of forming a successful strategic alliance | 229 |
| Risks and limitations with strategic alliances | 231 |
| The role of trust in strategic alliances | 232 |

The concept of trust
Innovation risks in strategic outsourcing
The use of game theory to analyse strategic alliances
Game theory and the prisoner's dilemma
Use of alliances in implementing technology strategy
Case study: The Hollywood film industry and the role of knowledge network organisations

Chapter summary
Discussion questions
Key words and phrases

8 Management of research and development

What is research and development?
The traditional view of R&D
R&D management and the industrial context
R&D investment and company success
Classifying R&D
The operations that make up R&D
R&D management and its link with business strategy
Integration of R&D
Strategic pressures on R&D
The technology portfolio
The difficulty of managing capital-intensive production plants in a dynamic environment
Which business to support and how?
Technology leverage and R&D strategies
Strengths and limitations of this approach
Allocation of funds to R&D
Setting the R&D budget
Level of R&D expenditure
Case study: The long and difficult 13-year journey to the marketplace for Pfizer's Viagra

Chapter summary
Discussion questions
Key words and phrases
Websites worth visiting
References
Further reading

9 Managing R&D projects

Successful technology management
The changing nature of R&D management
Organising industrial R&D

| | |
|--------------------------------------------------------------------------|-----|
| The acquisition of external technology | 294 |
| Level of control of technology required | 295 |
| Forms of external R&D | 296 |
| Effective R&D management | 299 |
| Managing scientific freedom | 299 |
| Skunk works | 302 |
| The link with the product innovation process | 302 |
| The effect of R&D investment on products | 304 |
| Evaluating R&D projects | 305 |
| Evaluation criteria | 306 |
| Case study: The role of clinical research in the pharmaceutical industry | 309 |
| <i>Chapter summary</i> | 313 |
| <i>Discussion questions</i> | 314 |
| <i>Key words and phrases</i> | 314 |
| <i>Websites worth visiting</i> | 314 |
| <i>References</i> | 314 |
| <i>Further reading</i> | 316 |

10 Open innovation and technology transfer 318

| | |
|---------------------------------------------------------------------------------------|-----|
| Background | 320 |
| The dominant economic perspective | 320 |
| Open innovation | 322 |
| Introduction to technology transfer | 323 |
| Information transfer and knowledge transfer | 324 |
| Models of technology transfer | 324 |
| Licensing | 324 |
| Science park model | 326 |
| Intermediary agency model | 326 |
| Directory model | 326 |
| Knowledge Transfer Partnership model | 327 |
| Ferret model | 327 |
| Hiring skilled employees | 327 |
| Technology transfer units | 327 |
| Research clubs | 328 |
| European Space Agency (ESA) | 328 |
| Consultancy | 328 |
| Limitations and barriers to technology transfer | 330 |
| NIH syndrome | 331 |
| Internal organisational factors and inward technology transfer | 331 |
| Developing a receptive environment for technology transfer | 332 |
| Identifying external technology: the importance of scanning and networking | 334 |
| Linking external technology to internal capabilities | 336 |
| Managing the inward transfer of technology | 336 |
| Technology transfer and organisational learning | 337 |
| Case study: Sony-Ericsson mobile phone joint venture dependent on technology transfer | 339 |

Part Three New product development

11 Product and brand strategy

Capabilities, networks and platforms
 Product platforms
Product planning
Product strategy
 Competitive strategy
 Product portfolios
The competitive environment
Differentiation and positioning
 Differentiation
 Product positioning
Competing with other products
Managing brands
 Brands and blind product tests
Brand strategy
 Brand extensions
Market entry
Launch and continuing improvement
Withdrawing products
Managing mature products
Case study: The role of design in the development of a wheelchair for cerebral palsy sufferers

Chapter summary
Discussion questions
Key words and phrases
Websites worth visiting
References

12 New product development

Innovation management and NPD
 New products and prosperity
Considerations when developing an NPD strategy
 Ongoing corporate planning
 Ongoing market planning
 Ongoing technology management
 Opportunity analysis/serendipity
NPD as a strategy for growth
 Market penetration

| | |
|-----------------------------------------------------------------------|-----|
| Market development | 392 |
| Product development | 393 |
| Diversification | 393 |
| A range of product development opportunities | 393 |
| What is a new product? | 396 |
| Defining a new product | 398 |
| Classification of new products | 399 |
| Repositioning and brand extensions | 401 |
| New product development as an industry innovation cycle | 403 |
| Overview of NPD theories | 403 |
| Models of new product development | 407 |
| Departmental-stage models | 407 |
| Activity-stage models and concurrent engineering | 408 |
| Cross-functional models (teams) | 410 |
| Decision-stage models | 410 |
| Conversion-process models | 410 |
| Response models | 410 |
| Network models | 411 |
| Case study: Launching innocent into the growing fruit smoothie market | 412 |
| <i>Chapter summary</i> | 419 |
| <i>Discussion questions</i> | 419 |
| <i>Key words and phrases</i> | 420 |
| <i>Websites worth visiting</i> | 420 |
| <i>References</i> | 420 |
| <i>Further reading</i> | 423 |

13 Packaging and product development 424

| | |
|--------------------------------------------------------------------------------|-----|
| Wrapping and packaging products | 426 |
| The basic principles of packaging | 428 |
| Protection | 429 |
| Containment | 430 |
| Identification | 431 |
| Labelling | 431 |
| Characteristics of packaging | 433 |
| Dispensing | 434 |
| Storage | 434 |
| Stability | 434 |
| Handling | 434 |
| Opening/resealing | 435 |
| After use and secondary use | 435 |
| Disposal | 435 |
| Product rejuvenation | 437 |
| New product opportunities through packaging | 438 |
| Product and pack size variation | 439 |
| Packaging systems | 441 |
| Retailer acceptance | 442 |
| Revitalising mature packaged goods | 444 |
| Case study: Halfords Motor Oil: redesign and rebranding of an existing product | 445 |

14 New service innovation

The growth in services
Growth in knowledge-intensive business services (KIBS)
Outsourcing and service growth
Different types of services
Technology and new service development
New services and new business models
Characteristics of services and how they differ from products
Intangibility
Heterogeneity
Simultaneous production and consumption
Perishability
Classification of service innovations
The new service development process
New service development models
Sequential service development models or stage-gate models
Concurrent service development models
Service innovation and the consumer
Consumer user toolkits
Consumer testing of services
Case study: Developing new services at the world's most successful
Internet-based company, eBay

15 Market research and its influence on new product development

Market research and new product development
The purpose of new product testing
Testing new products
Techniques used in consumer testing of new products
Concept tests
Test centres
Hall tests/mobile shops
Product-use tests

| | |
|------------------------------------------------------------------------------------------------|------------|
| Trade shows | 492 |
| Monadic tests | 492 |
| Paired comparisons | 493 |
| In-home placement tests | 493 |
| Test panels | 493 |
| When market research has too much influence | 493 |
| Discontinuous new products | 496 |
| Market research and discontinuous new products | 497 |
| Circumstances when market research may hinder the development of discontinuous new products | 498 |
| Technology-intensive products | 499 |
| Breaking with convention and winning new markets | 500 |
| When it may be correct to ignore your customers | 503 |
| Striking the balance between new technology and market research | 504 |
| The challenge for senior management | 505 |
| Case study: Dyson, Hoover and the bagless vacuum cleaner | 506 |
| <i>Chapter summary</i> | 513 |
| <i>Discussion questions</i> | 514 |
| <i>Key words and phrases</i> | 514 |
| <i>Websites worth visiting</i> | 514 |
| <i>References</i> | 514 |
| <i>Further reading</i> | 516 |
| 16 Managing the new product development process | 518 |
| New products as projects | 520 |
| The key activities that need to be managed | 521 |
| Assembling knowledge | 522 |
| The generation of business opportunities | 523 |
| Developing product concepts: turning business opportunities into product concepts | 526 |
| The screening of business opportunities | 527 |
| Development of product prototypes | 529 |
| Technical testing | 530 |
| Market testing and consumer research | 530 |
| Market introduction | 532 |
| NPD across different industries | 532 |
| Organisational structures and cross-functional teams | 533 |
| Teams and project management | 534 |
| Functional structures | 534 |
| Matrix structures | 535 |
| Corporate venturing | 537 |
| Project management | 537 |
| Reducing product development times through computer-aided design | 538 |
| The marketing/R&D interface | 538 |
| High attrition rate of new products | 539 |
| Case study: An analysis of 3M, the innovation company | 542 |
